DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: In the specification, on page 1, under the title CROSS-REFERENCE TO RELATED APPLICATION, only the following application should be listed as follows:

This application claims benefit of U.S. provisional patent application Serial No. 60/217,908, filed July 13, 2000.

The other listed prior art patents should be listed under a separate heading as follows:
DESCRIPTION OF THE RELATED PRIOR ART.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "or in some way" renders the claim indefinite because the claim includes elements not actually disclosed (those encompassed by "or in some way"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Claim 1, line 2 should not end with a period.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Pickard et al. (5,220,909). Pickard `909 discloses a cleaning member (towelette) embedded in a food holding means (module 35), said cleaning member is accessible to the consumer during and or after the consuming of said food. See column 4, lines 44 and 45.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Cooper (5,996,169). Cooper `169 discloses a cleaning member (moist towelette 25) attached to a food holding means (can), said cleaning member is accessible to the consumer during and or after the consuming of said food. See Figures 6 and 7 embodiments.

7. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Ebine (5,992,677). Ebine `677 discloses a cleaning member (towelette 24') embedded in a food holding means (can 20), said cleaning member is accessible to the consumer during and or after the consuming of said food. See Figure 4 embodiments.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shown are apparatus for cleaning hands analogous to applicants' instant application.
